CUSTOM TRAYS, COASTERS & CUTTING BOARDS

Beech veneer core + laminated custom print

These products are made of Beech veneer layers and have a melamine based surface which is sustainable against heat, alcohol and UV. The adhesive used between the veneer sheets is a phenolic film that guarantees the tray is sustainable against washing.

Digital printed paper is used to customize the trays. We are able to use your photographs, art images and logos.

All products are approved for use in contact with food and are FSC Mix certified.

These trays are particularly dedicated to regular but non-intensive use.

Category	Item size (mm)	Shape	Item code	Description
TRAYS	270 x 200		8.2720-A	Laminated rectangular tray + custom print
	360 x 280		8.3628-A
